

## COMPANY PROFILE

### CUSTOM DEVELOPMENT AND MANUFACTURING

Innovize offers custom development and manufacturing solutions - including converting, contract manufacturing, and packaging for components or finished medical devices.

### OWNERSHIP

Innovize is privately held and owner-operated.

### LOCATIONS

Headquarters and Manufacturing  
500 Oak Grove Parkway  
St. Paul, Minnesota 55127

We'd love to meet you at your facility to understand your project.

### WHY WORK WITH US

For more than 60 years, the Innovize team has developed expertise helping clients with custom product development and production solutions. Over the course of relationships, Innovize customers have recognized our “uncommon offering” as:

- Dedicated and resourceful team
- Innovative development and manufacturing
- Custom solutions

### SERVICES

- Product Development
- Manufacturing
- Supply Chain Management
- Inventory Management
- Customer-Specific Solutions

## CAPABILITIES

Innovize is a contract manufacturer specializing in medical converting. Providing innovative solutions, we produce subassembly components and finished medical devices.

### DIE CUTTING

- Rotary die cutting
- Rotary laser cutting
- Slitting
- Flatbed die cutting
- Matched metal die cutting
- Steel rule die cutting
- Sonic bonding and perforating
- Flatbed laser cutting
- Optical registered die cutting

### LAMINATION

- In-line laminating and die cutting
- Island placement
